

Submission to the Victorian Law Reform Commission

MEDICINAL CANNABIS REFERENCE

To The Commission Law Reform,

I wish to support the legalisation of Medicinal Cannabis.

Our 55 year old daughter has suffered epilepsy since birth. We believe that this form of medicinal cannabis would relieve our daughter Karyn's suffering immensely. Karyn is on a number of drugs which do not fully control the epilepsy and have numerous side effects including blurred vision anxiety and depression. Karyn sleeps at least 18 hours per day because of the drugs she is taking.

Her nurologist believes medicinal cannabis would be of great benefit to Karyn but because its illegal status we are unable to use it.

Yours sincerely
Jan Hartwich
