Victorian Law Reform Commission,  
Level 3/333 Queen Street,  
Melbourne 3000

8th June 2015

Dear Concerned,

### **Re:- Medicinal Cannabis and The law**

I have herewith enclosed copy of letter on behalf of the Minister for Health, Jill Hennessy, dated 24th May 2015, suggesting we write to Victorian Law Reform Commission, although the deadline has closed, the board may consider our opinion as aid the final report. With due respect the following:-

Submission.

As the Herb Cannabis has been used as a medicine since recorded time, as to heal or cure various ailments suffered by the Human race. if we consider the recent public support for Medicinal Cannabis cultivation, cannabis tincture oil, I need not point out the urgent need for reform.

It is recommended:-

- (1) that Medicinal Cannabis cultivation is no longer an illegal offense.
- (2) the procession use of Cannabis tincture no longer be an illegal offense .

I take this opportunity to bring to Victorian Law Reform Commission attention matters relevant to the current issues.

Aboriginal Elders greatly appreciated the Governments intention to aid the children and others suffering or various illnesses, However Elders, concerned with the length of time all ready past, and future time, some were shocked, disappointed that children and others have to wait, suffering unnecessary, due to agreements Acts constructed by overseas interest, prohibiting cannabis cultivation in Australia .

This agreement as law, some claim an illegal Act, which, in part, removed the Victoria Government responsibility and power to protect the citizens of Victoria. I trust that Victorian Law Reform Commission, will bring to Parlaiment attention the doubt surrounding cannabis laws, To consider if the law was past in a proper and lawful manner. as to ease the growing public unrest.

I have also enlosed copy of letters to the Minister for Health, Jill Hennessy dated 7 April 2015, and the 5th May 2015.

Submission ends, by:-
