## TRADING OF HUMAN FLESH CONSULTATION REVIEW AUGUST 2016

Please find attached the edited notes of meeting held 1<sup>st</sup> September 2016 together with following comments.

Mothers believe that the Victorian Attorney General Martin Pakula has breached his *Fiduciary Duty as No. 1 Legal Officer* of the State of Victoria, under minds public trust and seriously breaches Declaration of Basic Principles of Justice for Victims of Crime and Abuse of Power - by setting *Terms of Reference* for the formation of this report to preclude an era of criminal practices in adoption that occurred late 1950's – mid 1970's

Crimes against humanity – brutal, illegal, unlawful medical crimes – sexual abuse – obstetric violence – abduction of newborn babies late 1950's – mid 1970's under new medical policies and practices 22<sup>nd</sup> May 1958 – towards unwed motherhood – still answerable under Crimes Legislation 1958.

Without Prejudice

Governments are allowing mothers who committed suicide to be buried and forgotten but we will never allow their pain and suffering to be buried and forgotten by Governments.

(prior to 1984) whereby many adoptions that took place breached the 1958 Victorian Crimes Act.

***NO MAN HOWEVER PROMINENT, HOWEVER POWERFUL  
HE MAY THINK HE IS - CAN DEFY THE RULE OF LAW***

This current report has put together a document that is deemed by mothers to be sanctioned by the Victorian Government as endeavoring to eliminate the rights of a mother – reintroducing past criminal actions – and has set their focus to giving paramount concern over the mother of the child to the prospective adoptive persons – as what occurred during this baby trafficking era late 1950’s – mid 1970’s – further under the Victorian Crimes Act of 1958 our children’s rights have also been breached

It must be mandatory for a mother to be first and foremost seen as of paramount importance under any Adoption Act. She is the mother of the child and any decision regarding her child’s welfare must be enacted by her and her extended family. A child at risk from their parents must be seen as being part of extended family and their input must also be paramount.

**IN THE BEST INTEREST OF THE CHILD**

*Chief Justice Sir Edmund Herring said during Full Victorian Court Hearing<sup>1</sup>*

*“that the best interests of a child are best served if they are brought up by their own parents in their own home”.*

*“adoption in the nature of things is only a second best to be put into operation only when the first best is for some reason not available. Legislature is merely conforming to common experience for mankind but it must always I think be regarded as manifestly unfair to a mother and not in the best interest of the child to sever relationship between them against mother’s will. As a rule it is true to say that a natural mother’s unselfish devotion to the child she has carried during pregnancy knows no bounds and continues throughout life whether things are well or ill. The same measure of devotion with the same measure of durability can hardly be expected of adoptive parents.”*

Before the Hague Convention (mid 1970’s) it has been established by an inquiry, their subsequent report and apologies from the Prime Minister of Australia and past and current Premiers of Victoria that many, many adoptions during this brutal era breached the Victorian Crimes Act of Child Stealing and breached the Victorian Crimes Act of “*Offence to administer certain substances*” when mothers were administered heroin

<sup>1</sup> Quoted in Department of Human Services own documents with case references etc. – precedence still stands today

Without Prejudice

Governments are allowing mothers who committed suicide to be buried and forgotten but we will never allow their pain and suffering to be buried and forgotten by Governments.

(banned drug) DES and other mind altering drugs in a pursuit of others to steal their children.

The Victorian Crimes Act 1958 was further breached – brutal criminal sexual and obstetric crimes committed on young pregnant girls during this baby trafficking era.<sup>2</sup>

- Medical prescribed DES DURING LABOUR to kill the OXYTOCIN LOVE HORMONE IN THE MOTHER – CRIMINAL INTENT TO ABDUCT HER NEWBORN BABY – NO LAW ALLOWED SUCH ACTIONS – MEDICAL PRESCRIBED DRUGS. SO STOP LACTATION DURING BIRTHING PROCESS WAS TO KILL OXYTOCIN LOVE HORMONE – CRIMES AGAINST HUMANITY.

**THE REPORT IS ALSO SEEN BY MANY WOMEN AS EMOTIONAL ABUSE – TO DENIGRATE AND DEHUMANISE SEXUAL CRIMES COMMITTED ON THEIR BODY, MINDS AND SPIRITS IS NO DIFFERENT TO VLRC DENIGRATING AND DEHUMANISING VICTIMS OF MEN WHO WORE WHITE COLLARS – IT IS AN ABMONIATION FOR ANY HUMAN BEING TO DENIGRATE AND DEHUMANISE A SEXUALLY ABUSED VICTIM.**

The illegal abduction of unwed mothers’ newborn babies in hospitals across Victoria and **SANCTIONED by the Victorian Government from 22<sup>nd</sup> May 1958<sup>3</sup>** is now seen by mothers as being covertly repressed in 2016 in order to begin a new era of unjustified criminal abuse and illegal abduction.

*To the mothers we say sorry – these events were not your fault – many of you have exposed the lies that have been told about you. We believe you and we deeply regret that these practices ever took place. There are no mitigating circumstances for what happened to you. These practices were sanctioned by no law. We are deeply sorry for the cruel way you were treated, for the untruths told about you and for the trauma, pain and suffering you have endured in being denied the right to stay with and to raise your child.”<sup>4</sup>*

For VLRC to condone past crimes still answerable under Victorian Crimes Act 1958 raises a very serious breach of our law by suppressing criminal actions as *social change* with VLRC representatives and upholders of Victorian’s law, democracy and rule of law.

<sup>2</sup> Late 1950’s – mid 1970’s Incontestable, irrefutable, indefensible and unquestionable evidence NOT ONLY exposed by mothers but written reports from members of the medical profession who witnessed these crimes – Dr. B. Hoolihan “it was something out of the middle ages” and in Victorian Parliament the Hon. Arthur Rylah when he introduced the 1964 Model Adoption Act – stated the new Bill was important to stop baby farming – crimes committed under the 1958 Adoption of Children’s Legislation and 1958 Victorian Crimes Act and during closed adoption era from 1965 to mid 1970’s baby farming – exposed again – leading to the Honorary Medical System as it was formulated to be abandoned by Victorian Government (evidence from Victorian Government’s own archival documents to protect unwed mothers and their newborn babies from medical exploitative measures)

<sup>3</sup> Under Hospitals and Charities Legislation – all unwed mothers homes and public hospitals were to conform with policy introduced – failing to do so – their Government funding would cease – black mailing tactics used by Dr, Lindell Chairperson Hospital and Charities Commission and his Deputy Dr. Davis. This evidence is direct from Victorian Government’s own archival documents.

<sup>4</sup> Words written by the President and Chief Executive Office of a past home for unwed mothers and babies

Without Prejudice

Governments are allowing mothers who committed suicide to be buried and forgotten but we will never allow their pain and suffering to be buried and forgotten by Governments.

## **FIDUCIARY DUTY**

We believe VLRC is also breaching its fiduciary duty

- Person or persons entrusted for the benefit of another
- The law of or pertaining to the relation between fiduciary and his/her principles
- Based on or nature of trust and confidence.

We believe, contents of this report was born out of the thoughts of those protecting criminals – setting the pattern for the review putting into place foundation of the report – picking up these thoughts and working with them – departing from the principles of law to put a case for prospective adopters not to protect natural families – with the best interest of the child now changed to read *in the best interest of the adopters*.

The verbiage that the great minds penned for this report but when carefully examined are mostly found to be incorrect – the report simply spewing out words. If the report had of been built on truth and not on foundation of misinformation it would be seen as the protection of **natural mothers, fathers, sons and daughters into the future** but to repeat and put into practice not only the thoughts but conspiratorial intent of those who are covering up criminal law is illegal, unlawful and unethical including Victoria's No. 1 Law Officer – Attorney General.

**To use the excuse of SOCIAL CHANGE denies and ensures the Terms of Reference preclude all criminal actions – there was no justification, no mitigating circumstances, no law that allowed these criminal actions under the Victorian Crimes Act 1958 of child stealing, sexual crimes and injecting young mothers with cancerous, banned drugs (heroin) and psychological analytical drugs.**

Social change cannot be used as a substitution for past criminal actions and cannot replace truth of crimes under the Victorian Crimes Act 1958 of *child stealing*.

During Premier Ted Ballieu's Victorian Parliamentary apology the legal profession were condemned for their breach of trust during late 1950's – mid 1970's – his words

*Include medical, legal personnel and welfare officers when past Governments purposely and deliberately sanctioned such illegal practices*

***“To acknowledge the tragedy you have endured I must affirm one simple rule – to prematurely separate a mother and her newborn baby against their will is to pervert the order of nature and to betray the basic tenets of civilisation. It is wrong, it is inexcusable and violation of this rule is a principle test for the health of any society. We failed that test. We failed it when doctors would lull young***

*women into medicated delirium, press them into submission and undertake the procedure with a cold and clinical urge.”<sup>5</sup>*

**AND NOW PREMIER DANIEL ANDREWS’ WORDS MEAN SOCIAL CHANGE???????????**

While VLRC *Terms of Reference* do not reflect prior to 1984 their document therefore cannot reflect prior to this date.<sup>6</sup> Any discussions with regards to adoption amendments must be in line *in the best interest of the child – not in the best interest of those who cannot produce their own offspring and unable to face the truth of their own lives.*

First and foremost the mother is the legal guardian of her child – it is the mother who makes the decision – no legislation can be written or put into place for the removal of a mother’s decision about her child.

VLRC has a fiduciary duty to protect natural children, natural parents and natural family members from being exploited – protected under International human rights<sup>7</sup> and Victorian Charter of Human Rights and Responsibilities – the VLRC document gives no protection to natural extended family but is giving more rights to same sex couples.

The Attorney General is Victoria’s No 1 law officer and for him to sanction Law Commission to ignore their duty of care under the law is also believed to be a serious indictment on the legal profession. These are incontestable, irrefutable and indefensible legally proven crimes therefore VLRC by condoning these crimes under **social change is breaching the law.**

Impossible to produce one’s own offspring does not give such persons the right to believe they can steal another’s child and to hell with the damage caused to the child they have stolen as if it was theirs.

If I could not afford a luxury car and I cannot face up to the reality I can’t afford a luxury car – it does not give me the right to go and steal someone else’s luxury car. Would the owner go into the police station and say *someone has stolen my car – no -* they would say *my car has been stolen and when I am caught driving the stolen car down the road I face the full force of the law -* therefore those who cannot produce their own offspring have no legal or moral rights to steal another family’s child – **Adoption Legislation cannot be put into place allowing child stealing, baby trafficking and legal protection of criminals -**

<sup>5</sup> Now Premier of Victoria – Daniel Andrew’s own words during Victorian Parliamentary Apologies 25.10.2012

<sup>6</sup> But it does – Australian adoption legislation relating to inter-country adoptions assisted reproductive techniques – surrogacy – same sex adoptions – donor conception – why are they included another act of conspiratorial intent?

<sup>7</sup> Universal Declarations of Human Rights, International Covenant on Civil and Political Rights, Convention of the Rights of the Child, Declaration on the Protection of all Persons from Enforced disappearances, International Convention on the Elimination of all forms of racial discrimination

Crimes against humanity – brutal, illegal, unlawful medical crimes – sexual abuse – obstetric violence – abduction of newborn babies late 1950’s – mid 1970’s under new medical policies and practices 22<sup>nd</sup> May 1958 – towards unwed motherhood – still answerable under Crimes Legislation 1958.

Without Prejudice

Governments are allowing mothers who committed suicide to be buried and forgotten but we will never allow their pain and suffering to be buried and forgotten by Governments.

Substituting criminal actions for **SOCIAL CHANGE is reprehensible** – as social change cannot replace truth of criminal actions and VLRC would not use **social change as an excuse pertaining to those who were sexually abused by men who wore white collars – child stealing under Victorian Crimes Act 1958 – so how can VLRC use social change when it comes to brutal sexual crimes – obstetric crimes – illegal abduction of newborn babies – committed by men in white coats?** The perpetrators of these crimes must be brought to justice and no future amendment to the adoption act can be written protecting criminals.

It is illegal for any person or any organization including VLRC to condone medical sexual crimes listed as No. 12 alleged sexual perpetrators out of a list of 18 alleged sexual perpetrators in *Royal Commission's Interim Report*?

*Mothers received their National Apologies  
– they are only a small percentage of the overall picture –  
– it is now about the end result adoption<sup>8</sup>*

Commonwealth and State Governments have advised no official direction was ever given to confirm the above statement – conspiratorial intent to protect past criminals who committed brutal and heinous sexual crimes<sup>9</sup> - obstetric crimes – injected with banned and psychological analytical drugs – illegal abduction, **theft, stolen, kidnapped of newborn babies from their unwed young mothers<sup>10</sup>** began in the State of Victoria.

### VLRC TERMINOLOGIES

The Commonwealth Senate Report 29.2.2012, Parliamentary Apologies, Adoption Legislation are all respectful towards natural mothers yet VLRC report is disrespectful – using the terminology *birth mother* indicates the womb of a woman is used as a breeding commodity and also women faced enslavement with the theft of body parts – their newborn baby.

*Term mother to refer to person who has given birth to a child – however in instances where further clarity is needed we have used the terms **natural mother and adoptive mother** to make the distinction between these parties – similar distinctions are drawn between natural father and adopted father and natural parents and adopted parents where necessary.<sup>11</sup>*

Natural mothers are natural mothers – adoptive mothers are unnatural mothers – they did not give birth to the stolen child and cannot cover up these crimes by demanding natural

<sup>8</sup> Mr. Leigh Hubbard, Chairperson of VANISH – several months after National Apologies were spoken and when he became a member of the non transparent Commonwealth's Implementation Working Group

mothers to be referred to as birth mothers – the Adoption Legislation does not insult natural mothers – so why is the VLRC leaning to views of adoptive mothers<sup>12</sup> – with same sex male couples *there is no adoptive mother – two adoptive fathers – they are not natural fathers either.*

### Consultation Report – 2.34

*The status of illegitimacy was abolished in the early 1970's **WRONG***

*The outcome was that fewer women chose adoption and the number of infants available for adoption radically reduced – numbers began to fall – **WRONG -***

*COINCIDENCE – OF COURSE NOT - SAME WORDS USED BY PROFESSOR ALAN TROUNSON AND DR. JOHN LEETON IN 2013 DESCRIBING WHAT OCCURRED*

*UNDER ADOPTIONS EARLY **1960'S** – SOMEONE HAS COMMITTED CONSPIRATORIAL INTENT AND MOTHERS KNOW WHO. IF IT WAS NOT SO SERIOUS IT WOULD BE LAUGHABLE.*

VLRC report is about increasing adoptions – destroying natural families – removing protection around natural families – families to be controlled by a State Government – there are no justification, no mitigating circumstances and no law for any Government to remove the protection around non indigenous natural families.

### Commonwealth Senate Inquiry into Forgotten Australians – August 2004

There is no reference in VLRC report to the above but it is suggested your researchers read

Page 107      4.58 – 4.61      Forced Adoption of Babies

And also suggest your researchers read

Pages 86/87      4.7      Medical sexual assault on young girls residing in Institutional care “*it was straight out assault*” one young girl was 9.

<sup>12</sup> Also requiring a support service to be legislated for adoptive parents – if the child they have in their possession under adoption is suffering – it is a clear indication the child is suffering deep trauma from the separation from their natural families, customs, culture and heritage – so adoption legislation once again proven to be in place for those who cannot produce their own offspring.

Crimes against humanity – brutal, illegal, unlawful medical crimes – sexual abuse – obstetric violence – abduction of newborn babies late 1950's – mid 1970's under new medical policies and practices 22<sup>nd</sup> May 1958 – towards unwed motherhood – still answerable under Crimes Legislation 1958.

Without Prejudice

Governments are allowing mothers who committed suicide to be buried and forgotten but we will never allow their pain and suffering to be buried and forgotten by Governments.

**Statistics – 5.16** – the data does not provide a complete picture of the number of State Wards **due to the non recording of figures and varying practices regarding children placement at different times.**<sup>13</sup>

### **ADOPTION STATISTICS**

*The factor of defective recording techniques may explain the large difference between the illegitimate rates of the States and perhaps may be a partial explanation of the apparent increase of the rate of adoptions in recent years.*<sup>14</sup>

### **IDENTIFYING INFORMATION**

Adopted persons natural sons/daughters do not have legal right to access any identifying information about the natural mother/father (natural grandparents) – natural siblings do not have access to identifying information about their natural brother/sister – the section of the Adoption Legislation must clearly be in line with equality and non discrimination. But it must always been part of our law – that no person can obtain copies of another persons birth and marriages certificates WITHOUT THE PERMISSION of the person's name appearing on the certificate (this does not include original birth certificate of son/daughter as equality exists as both mother and son/daughter can obtain a copy of this certificate).

Adoptive parents even during closed adoption era (after 1964-1984) knew the identity of the natural mother – [REDACTED] – *closed was an era to protect adoptive parents from natural mother re-entering their child's life again – and were incorrectly informed the original birth certificate was no longer registered with Births, Deaths and Marriages – but they were given a copy of the original birth certificate for their own records.*

### **CONCLUSION**

**During Victorian Parliamentary Apologies 25.10.2012 Victorian Parliament guaranteed past crimes would never occur again in the State of Victoria – child stealing, sexual and obstetric crimes, malpractice, mistreatment, unlawful, unethical and illegal separation of mother and child – but less than four years later – Attorney General dishonors that solemn guarantee and suppresses CRIMES (against the law) and his responsibility to prosecute criminals under the Victorian Crimes Act 1958.**

For any person to cover up criminal atrocities becomes part of the crime<sup>15</sup> – as ignorance is no excuse under the law.<sup>16</sup>

<sup>13</sup> Consultation Review mentions adoption statistics as being accurate – VLRC researchers need to search out facts and not rely on stated statistics

<sup>14</sup> R. Sackville, Australia Law Journal Vol 44 – January 30, 1970 page 6

Crimes against humanity – brutal, illegal, unlawful medical crimes – sexual abuse – obstetric violence – abduction of newborn babies late 1950's – mid 1970's under new medical policies and practices 22<sup>nd</sup> May 1958 – towards unwed motherhood – still answerable under Crimes Legislation 1958.

Without Prejudice

Governments are allowing mothers who committed suicide to be buried and forgotten but we will never allow their pain and suffering to be buried and forgotten by Governments.

With the VLRC Committee only representing males – inequality and discrimination against mothers continue – women have wombs – men don't so how can they have any opinion about motherhood – they can't – so to exclude mothers and to exclude a child advocacy representative (child over 12 can have their own say about adoption) is unconscionable and certainly a further conspiratorial intent placing natural families in grave danger of being destroyed by hungry couples who are incapable to producing their own offspring naturally – the Roman Empire was destroyed and the same devastation is heading onto the State of Victoria.

**As stated at the conclusion of my meeting – I offered to meet again with VLRC but was advised**

*mothers views will not alter the Consultation Paper and the only avenue available to mothers to be heard again – is when the VLRC final report is tabled in Parliament and they will need to campaign through politicians for their voices to be heard”.*

**Therefore from the closing of consultation meetings –VLRC CANNOT SANCTION DISCUSSIONS WITH ANY MEMBER OR MEMBERS OF THE ADOPTION COMMUNITY OR ADOPTION ORGANISATIONS i.e. VANISH – IF THAT OCCURS – VLRC WILL BE COMMITTING A SERIOUS BREACH OF INEQUALITY AND DISCRIMINATION AGAINST NATURAL MOTHERS/FATHERS AND THEIR EXTENDED FAMILIES. WOMEN DO NOT HAVE EQUALITY ON THE VLRC COMMITTEE BUT WE ARE ENTITLED TO EQUALITY WHEN IT COMES TO CONSULTATION PROCESS AS GIVEN TO VANISH AND MEMBERS OF ADOPTION COMMUNITY.**

Permission is given for VLRC to include in their final report any comments contained within edited notes from 1<sup>st</sup> September, 2016 and this letter from Independent Regional Mothers

Yours sincerely,

Brenda Coughlan  
Spokesperson for Independent Regional Mothers

<sup>15</sup> Royal Commission into Institutional Response to Child Abuse has made it very clear under Criminal and Justice – any person who covers up crimes of sexual abuse (and that includes the crimes committed by men in white coats – sexual abuse, obstetric crimes, child stealing, administering banned drugs under Victorian Crimes Act 1958) could face prosecution – as excuses and ignorance is no defence and VLRC representatives of the law should be aware of the law even the Attorney General's covering up these brutal and heinous crimes could also be held to account as per the VLRC Consultation Review August 2016

<sup>16</sup> As a result of Nuremberg Trials – ignorance was no excuse under the law – including the excuse I only did what I was told to do – is VLRC only doing what they have been told to do by Attorney General to suppress crimes under Victoria's Crimes Act 1958?

Crimes against humanity – brutal, illegal, unlawful medical crimes – sexual abuse – obstetric violence – abduction of newborn babies late 1950's – mid 1970's under new medical policies and practices 22<sup>nd</sup> May 1958 – towards unwed motherhood – still answerable under Crimes Legislation 1958.
