Subject: Submission - Stalking laws changed

To whom this may concern,

My name is Bianca Adams and I would like to make a public submission with regards to victims of stalkers and family violence.

I feel there is not enough protection for people who are stalked. I believe that we should do more to support these victims. I would like to see people who have committed or engaged in stalking monitored by GPS tracking devices. We need to keep our loved ones, children, family and friends safe. This is one step forward.

I personally know two woman killed by these types of predators. [REDACTED]

[REDACTED] To many people know someone that is killed or seriously injured by stalkers. We need to do more. We need to act. The time for change is now.

I believe GPS monitoring devices will assist police and provide them with the tools and support they deserve to keep everyone safe.

Regards,
Bianca Adams
