To: Stalking (DJCS) <stalking@lawreform.vic.gov.au>

Please change the laws regarding stalking as it's a terrifying thing to live with and endure. It ruins many lives, not only emotionally but financially & causes serious mental health issues & constant fear for one's life & safety & a lack of freedom & quality of life.

We need very harsh & strict laws & prison sentences for people who stalk & terrorise others and destroy their lives. Please make these laws National. Australia needs an equal law to protect every single Australian in every state, mainly women.

Hoping Australia can get tough on this very serious issue and get it right!

Yours hopefully,

Cheryl Browne
