Sorry I didn't finish what I wanted to say. This individual has 3 current IVO and has multiple violations on all 3. He has moved house, the police can't find him and have told us, just ignore it and move on! Order 4 on my IVO stated that he must remove all posts he has made on my workplace social media outlets, there were 8 when it was served and 35 days later there are still 8. Police say they can do no more, my Lawyers are considering contacting the Police Commissioner and the Ombudsman as this is just not good enough. This individual has continued to stalk many other people with disgusting things on their business sites including multiple entries on multiple sites accusing them of sexual assault, animal cruelty and abuse, rape and paedophilia and child abuse. He has had a total of 7 IVO's against him since 2016, was charged with misuse of carriageways to menace and harass 6 years ago, another 100 charges were dropped and he got off. We contacted one of the parties with an IVO in [REDACTED] and still suffers PTSD 6 years ago from the stress he went thru.
